

ASSEMBLY INSTRUCTIONS

Orsay Medium Chandelier

Item # PCD 5210

NOTICE:

This light fixture should be installed in accordance with all applicable, local installation codes, and by a person familiar with the construction and operation of it, as well as the hazards involved. Inspect item and contents carefully. If any damage or defect is found, do not install. Retain all packaging material until installation is complete and approved.

TOOLS REQUIRED (NOT INCLUDED):

Phillips Screwdriver Slotted Screwdriver Wire Cutters
Wire Strippers

1. Carefully remove all parts from the box. Place on a clean, soft surface.
2. Remove mounting plate (A) from canopy (D) by removing collar ring (E).
3. Install mounting plate (A) to junction box and secure with mounting screws (C).
4. Feed electrical and ground wires through bottom rod (H) and connect to fixture body (I). Repeat for middle rod (G), connecting to bottom rod (H).
5. Continue feeding wires through collar ring (E) and canopy (D).
6. Holding fixture upright, slide collar ring (E) and canopy (D) down and rest on fixture body (I). Then connect top rod (F) to middle rod (G).
NOTE: Slide components down slowly to avoid damages.
7. Hang fixture swivel ball (K) to the center of mounting plate (A).
8. Cut excess wires, being sure to leave enough to reach the junction box. Separate wires, and strip insulation on each 5/8".
9. Wrap fixture ground wire (bare copper) around the green grounding screw (see diagram 1). Tighten. Continue fixture ground wire and connect to supply ground wire (usually green or bare copper) using wire nut (B).

NOTE: It is imperative that the fixture is grounded.
